47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I feel like this is a no-brainer. We need to continue to have more options. It's sort of vital in places like the California/SF Bay Area that are already so expensive it's crucial that we can pick from more than just the one thing. I have several to choose from and that's already too few.

My whole life I've only ever seen competition let me come out on top as the consumer. Let's just keep it that way with ISPs, broadband, and all that good stuff, please.
